

FIRST RUN PAYROLL SERVICES, LLC

By *FLEMING, BROCKSCHMIDT & DURKIN PLL*

Rather than outsourcing your payroll to a third party
why not have your CPA, *an expert in payroll*,
process your payroll for you?

At **First Run Payroll Services, LLC**, our mission is to provide small employers with accurate and timely payroll services, along with the expertise of a CPA firm, at a competitive price. We want to give you the peace of mind that your compliance and reporting requirements are met.

- Count on us to handle the payroll processing for you, including check printing or direct deposit, payroll tax filing and payment, and W-2 reporting.
- Being located in one of the country's most complex geographies for local and state taxes, we will prepare and file **all of your payroll returns** on your behalf, including several city and county returns not prepared by other payroll providers.
- Our bundled pricing includes everything you need, with **no additional charges** that the other payroll providers nickel and dime you with.
- We do not force you to pay for an extensive online reporting system, which the other payroll providers require you to pay for, whether used or not.
- We offer you the convenience of simply submitting your data to us by telephone, fax or email.
- Work with a committed Payroll Specialist who will be accountable for the accurate and timely processing of your payroll.

Call 513-721-7590 to talk with Ann or Ellie, our Payroll Specialists, today!
